

Rest Reflect Reorient

What do we mean by "reorient"?

Reorienting is part of a continual cycle of practices that keep ministry moving forward even when the final destination may be too far in the distance to see. It is focusing on the next point or step toward ministry flourishing.

- 1 **Step one: What research and best ministry practices are key to your better ministry normal? Jot them on the back**
- 2 **Based on your desire hopes for a new normal, what are the small steps you can take toward the larger goal? What can be planted, nurtured, or pruned?**

Plant:
New things to start

Nurture:
Ministry components to develop, tend and grow

Prune:
Parts of ministry that were not fruitful or rooted in best practices

Launch!
with intention
